

# Mukul Taneja

## CAREER VISION

---

I intend to work in an established organization, where I can get new challenges to work upon and an excellent exposure to use my knowledge, skills and creativity to deliver my best in regard to all duties that I am entrusted with.

## WORKING AT

---

**Gramener, Bangalore**  
**Data Specialist**

**Dec 2015 - Present**

• Currently I am working in **Data Science Domain** at **Gramener, Bangalore**. Data Science is a field which tries to predict stories behind data and help in finding solutions to the questions. There are multiple steps for this process such as collecting data, reshaping it to the clean structure and then provide solutions to the client requirements after analyzing the data. We at Gramener generally take help of visualizations to answer these requirements.

## PERSONAL ACTIVITIES

---

- I have a great interest in competitive programming and I actively participate in multiple coding competitions on [HackerEarth](#) and many other portals like this.
- I am also interested in finding insights behind data and actively looking into public domain websites to fetch interesting data and try to figure out the structure and interesting facts. I keep posting my data analysis in [github repo](#) as well.
- I have also started to participate in social gatherings and in giving [talks](#) in my expertise topics.

## TECHNICAL SKILLS

---

- **Languages:**

Python 2.7		Data Visualization (D3.js)		Core PHP		Javascript
Jquery		Mysql		Behavior Driven Development		Linux
Bootstrap						
- **Tools and Libraries:**

Python Statistical Libraries (Pandas, Numpy, etc )		NetBeans		Jira
